DISCLAIMER

IMPORTANT INFORMATION: This communication is for information purposes only and is not, and under no circumstances is to be construed as, an invitation to make an investment in Centurion Real Estate Opportunities Trust. Investing in Centurion REOT Units involves risks. There is currently no secondary market through which Centurion REOT Units may be sold and there can be no assurance that any such market will develop. A return on an investment in Centurion REOT Units is not comparable to the return on an investment in a fixed-income security. The recovery of an initial investment is at risk, and the anticipated return on such an investment is based on many performance assumptions. Although Centurion REOT intends to make regular distributions of its available cash to Unitholders, such distributions may be reduced or suspended. The actual amount distributed will depend on numerous factors, including Centurion REOT's financial performance, debt covenants and obligations, interest rates, working capital requirements, and future capital requirements. In addition, the market value of Centurion REOT Units may decline if Centurion REOT is unable to meet its cash distribution targets in the future, and that decline may be material. It is important for an investor to consider the particular risk factors that may affect the industry in which it is investing and therefore the stability of the distributions that it receives. There can be no assurance that income tax laws and the treatment of mutual fund trusts will not be changed in a manner which adversely affects Centurion REOT.

PAST PERFORMANCE MAY NOT BE REPEATED. Investing in Centurion REOT Units can involve significant risks and the value of an investment may go down as well as up. There is no guarantee of performance. An investment in Centurion REOT is not intended as a complete investment program and should only be made after consultation with independent investment and tax advisors. Only investors who do not require immediate liquidity of their investment should consider a potential purchase of Units. The risks involved in this type of investment may be greater than those normally associated with other types of investments. Please refer to the Centurion REOT Offering Memorandum for a further discussion of the risks of investing in Centurion REOT.
